- Our homebound friends: Doug and Joan Archambault, Bob Metcalf, Helen Mieir, Ernestine Newton, Ruby Parham, Jane Rice, Margaret Burwell, and Rosa Wheeler
- Kriste Causey has been steadily working on her strength and endurance. She has an echocardiogram on Monday to see to what extent her heart valve was damaged during her last hospital stay. Please pray for good results for that and that her numbers continue to stay in a normal range. Also, please keep the prayers going for her pain medicine decrease.
- Ava West (5)- Ava is taking several new medications that are affecting her immune system, which means no visitors, or outings, etc. She will continue PT, and this will limit her to only aquatic therapy. Ava has been experiencing severe neuropathy in her legs and feet since the beginning of treatment. Her hands are also being affected, and she now struggles with small tasks such as opening a drink, snacks, squeezing, etc. Ava was seen last week at Duke for a stomach bug, she had to get fluids to keep her from getting too dehydrated.
