- Our homebound friends: Doug and Joan Archambault, Bob Metcalf, Helen Mieir, Ernestine Newton, Ruby Parham, Jane Rice, Margaret Burwell, and Rosa Wheeler
- Kriste Causey has been walking more and more this past week, as well as including staircases more. She is managing well with the pain medicine decrease. She did have some damage to her heart valve during her second hospital stay and will have an echocardiogram on March 24th to see to what extent, so please be praying for that. Please continue praying her numbers stay normal and the chemo continues to work, and of course for more healing with her strength and endurance.
- Ava West (5) - During this next phase of Ava's treatment she will be taking several new medications that will "swipe" her remaining immune system completely, because of this she will not be having visitors, or going out, etc. She will continue PT, and this will limit her to only aquatic therapy. Ava has been experiencing severe neuropathy in her little legs & feet since the beginning of treatment. Over the past 2 weeks, her hands have been affected & she now struggles with small tasks like opening a drink, snacks, squeezing, etc...
